Loved by Buyers. Rated by Real Homeowners.

From first walkthroughs to final handovers, homeowners consistently choose Hammell Homes for quality craftsmanship, thoughtful design, and a building experience they can trust.

I'm so relieved that I found this company to help me with the upkeep of my 1920's home. It's not easy to find quality at a reasonable price and that's exactly what Hammell Homes is. They went above and beyond and are also clean and trustworthy. Did exactly what they said (ahead of schedule) and charged me exactly what the estimate was. No budget change once the project started. **I just asked for another estimate from them for my next home improvement project!**

Thank you Rick. Go kits! Lol

Rick and his crew are amazing! We've had both bathroom and kitchen renovations done by them, and they worked diligently and did a beautiful job on both! We receive compliments all the time on our new kitchen. Rick is also very communicative throughout the entire renovation process.

Would highly recommend Hammell Homes!

We had a great experience with Hammell Homes. Rick's team (contractors, tile installer, electrician and plumbers) were professional and easy to work with. Our bathroom turned out stellar. We selected artisan materials that can be challenging to install, and Hammell Homes understood what was required and everything went seamlessly.

We'd work with them again.
